TCS GenAI Agent Suite

Ready-to-Deploy AI-Powered Solutions

Quick Implementation

Configurable GenAI agents· tailored to your landscape

Proven Architectures

Battle-tested design patterns for reliability and scalability

Configurable Inputs

Enables selection of parameters for streamlined deployment

Built-in Security

Securely deployed using existing client infrastructure

Flexible UI

Customizable user interface for diverse needs and roles

Continuous Updates

Continuous model training and regular new feature releases

Asset Integr Advisor
Prognosticating health and lifespan

Chemical Formulation Expert
Formulating corrosion inhibitors

AMS Resolution Agent
Automating incident management

Drilling Optimization Assistant
Efficient drilling

Reservoir Analysis
Identifying drilling spots

Renewable Forecast Assistant
Forecasting renewable production

Employee Safety
Monitoring wellness and risks

Energy Management
Optimizing asset schedules

Demand Forecasting
Comparing production and demand

Drilling Optimization
Advisory for energy trading
